

WILL TAKE GOOD NEWS

Senator Rawlins Starts to Washington Tomorrow.

PLEASED OVER ELECTION

WILL HAVE GLAD TIDINGS FOR COLLEAGUES.

Gives His Views on the Result—Salt Lake County Will Give Judge King a Majority of at Least 973 Votes—Total May Be Swelled By Complete Returns.

Senator Joseph L. Rawlins leaves tomorrow morning for Washington to resume his post of duty. He will be able to tell his colleagues of the Democratic faith that the western members of the party are true to their colors. Senator Rawlins was naturally highly pleased at the triumphant election of Judge King.

"It seems to me," he said, "that this result gives assurance that we will carry the state next fall by an increased majority. It shows that the trend of public sentiment is not against the Democratic party. The election was held under circumstances that were more favorable to the Republicans than to the Democrats, and the result will have a beneficial effect in the east, because there it has been claimed that the people of the west were all imperialists and with the administration on the new questions that have arisen. The result will tend to greatly encourage those of the east who believe in the old republic. Speaking of the work that is being done in congress, Senator Rawlins said:

"The prevailing opinion in Washington when I left was that the present session of congress would last until some time in June, and possibly very much later. There are many important questions yet to be settled. Among them will be a bill in relation to the government of the Philippines, the Hay-Poincote treaty and other matters.

"The treaty is not being received with favor. It gives the United States the privilege of digging and maintaining the Nicaragua canal, but denies us the right to fortify it to our advantage in time of war. I doubt whether it will be passed at this session. If it is, it is almost certain to be defeated.

"The Republicans would like to adjourn congress at the earliest possible moment. It is a good thing deeper into the hole every day, and all their efforts to extricate themselves only make matters worse. They see this and would like to get away as soon as possible."

GIVES KING 973.

Salt Lake County Stood By Its Colors.

Salt Lake county gives Judge King a majority of at least 973 votes. This total is arrived at by means of official returns from all except three small county districts and the total vote of these in 1898 is added to the total from the election of Monday.

The grand totals are 8,257 for King and 7,274 for Hammond. Voters that were made that King's plurality would exceed 900 votes are now due and payable to the King men who made them.

A notable feature about the election, in the fact that the county Republicans are claiming that their voters stayed at home, is that in the strong Democratic districts the Democrats lost most heavily by stay-at-homes. This is especially noticeable in the Third precinct of the city, where ordinarily the Democrats turn out in force and roll up big majorities. Here 1,532 voters did not vote.

The Democrats gained largely in Republican strongholds. For instance, the Fifth precinct, which gave Thompson a majority of something like 500, gave Hammond only 219. King carried the Second, Third and Fourth precincts. He got the first named by 180, the next by 536 and the last by 238.

Hammond carried the Fifth by 219 and the First by 45. Thus King's net majority in the city was 692.

PLEASED AT WASHINGTON.

Friends of Judge King Jubilant Over Result.

(Special to The Herald.)

Washington, April 3.—Gratification over the election of William H. King as Utah's representative in congress is sincere and pronounced among his hosts of Democratic friends in Washington. It is but a little more than a year since Congressman King vacated his seat to Brigham H. Roberts and how that he had soon returned as Mr. Roberts' successor, his many old colleagues, both in the house and the senate, will extend him a joyous welcome. Congressman King is so well and favorably known in Washington, that the minority party members of the national legislature count on his superior equipment to aid them materially in urging legislation in the interest of the masses of the people. With Congressman King and Senator Rawlins in their seats the interests of the people of Utah are in safe, able and energetic hands.

Political Notes.

The Woman's Democratic club will hold its regular meeting this afternoon at 2:30 o'clock at the residence of Mrs. Milando Pratt, corner State and Sixth South streets. In addition to other enjoyable features that have been prepared, Congressman-elect King will be on hand to make a few remarks.

Chairman Ben T. Lloyd of the county Democratic committee, extends his earnest thanks to the committee who helped him in the organization and the workers at the polls. He particularly desires to thank the Democratic women who served faithfully and well. Without the help of these assistants, Chairman Lloyd says it would have been impossible for the party to have made as good a showing as it did.

D. H. Peery, Jr., who at the close of the convention, announced his determination to botch the ticket for personal reasons, got out before the campaign was half over and did his level best to further the election of Judge King. Mr. Peery's best men a good show. He gave not only of his time, but of his money and on election day was in the first rank of the Democratic workers throughout the battle of the ballots.

WAITING ON THE VEToes

Council Sustains One and Over-rides Another.

LEGAL ADVICE SPURNED

LAND AND WATER RIGHTS IN PARLEY'S BOUGHT.

Million Gallons of Water Daily For \$20,000—Engineer Kelsey Names Errors in Water Distribution and Asks For More Rope or Release.

The city council last evening had its first experience with veto messages from Mayor Thompson. The contest was a draw, one point being scored by the mayor and one by the council. After adjournment the Republican members who feigned they could not agree with the executive's views offered apologies to him for voting to override the vetoes.

After some discussion Mayor Thompson's first veto was concurred in. The veto objected to the council's action in authorizing the superintendent of waterworks to let contracts to lowest bidders for \$2,500 worth of hydrants, valves and fittings on the ground that only the board of public works, as decided by the supreme court and advised by the city attorney, has authority in the premises.

Canning, Cottrill, Fernstrom, Howe (C. R.), Howe (Edgar), Reid and Tuddenham voted to override the veto and Buckle, Hartenstein, Harter, Robertson, Thomas and Whittemore voted to sustain the veto. Beatty got tired of the council's wrangling and soft before the vote was taken.

After the veto had been sustained the council referred the subject matter to the board of public works with directions to collect bids only from waterworks' supply dealers doing business in Utah.

The mayor's veto of the council's action in authorizing the claim of William C. Parley, the loss of the flowing well drained by the construction of the gravity sewer, by allowing him free water from the pipe system for a period of five years, next came up for consideration. The veto was based upon the city attorney's opinion that the claimant had no cause of action against the city, equitably or otherwise.

The advice of City Attorney Stephens as communicated through the mayor was quickly brushed aside and the veto was overridden, only Harter, Robertson, Thomas and Whittemore voting to sustain the veto. Beatty left the council chamber before the veto was taken and Gemmill was absent.

Driving a Good Bargain.

Relative to the proposition to acquire additional rights in Parley's canyon for increasing and purifying the city's water supply the mayor and the finance committee recommended that the Armstrong and Garn ranch in Mountain Dell fork, consisting of over 1,200 acres of land and prime water rights appurtenant, be purchased for \$200,000, one-fourth cash, the balance without interest on or before Dec. 1, the warranty deed to be placed in escrow till final payment is made, but possession of the entire property would be yielded to the city on payment of the first installment.

By unanimous vote the committee's recommendation was adopted and the city engineer, the Consolidated Implement company's prices varied from \$385.35 for 600-gallon carts to \$483.45 for 750-gallon wagons; the Studach and Parley's prices varied from \$250-gallon carts for \$360 each and 600-gallon carts for \$340, and the Utah Implement company quoted the larger carts at \$330 each and the smaller size at \$310.

Bids for furnishing the city fifteen new street sprinkling carts were opened and the proposals were referred to the engineering committee. The Consolidated Implement company's prices varied from \$385.35 for 600-gallon carts to \$483.45 for 750-gallon wagons; the Studach and Parley's prices varied from \$250-gallon carts for \$360 each and 600-gallon carts for \$340, and the Utah Implement company quoted the larger carts at \$330 each and the smaller size at \$310.

Engineer's Recommendation.

A communication from Engineer Kelsey stated that on June 28 last the distribution of water from the pipe system was placed under the advisory supervision of the city engineer. If this order is still in effect the engineer requested authority to make any changes in the method of distribution that may be deemed necessary to improve the supplying of water or that he be relieved of the responsibility.

The communication was referred to the waterworks committee. A communication from the city engineer directed attention to the fact that the recent action of the council in authorizing the superintendent of waterworks to expend \$1,000 in making surveys to locate curb boxes contemplated by the engineering work submitted, should be done by the engineering department. "A large amount of money has been expended by the waterworks department," continued the message, "in making surveys of this kind, and there is no complete map of the system. The amount of \$1,000, if properly expended, would make a complete map of the system, showing the location of every pipe, valve, hydrant and curb box, and if the work is to be done at all it should be done right."

The matter was referred to the committee on waterworks.
